ENDLESS EVOLUTION

SAFE USE INSTRUCTIONS

DuPont™ Corian® shower trays and bathtubs cannot be used autonomously by people with reduced motor skills, or with sensory and/or cognitive impairments (including children), or by anyone lacking the necessary knowhow to use them.

Make sure children are supervised by an adult in charge of their safety when using shower trays and bathtubs.

Shower trays and bathtubs were designed for domestic use, or similar, and must only be installed and used at room temperature.

It is dangerous to use shower trays and bathtubs in the vicinity of, or while using, electrical appliances (radios, hair dryers etc).

Pay special attention if using shower trays and bathtubs when alone.

Standing under hot running water for a long time could cause nausea, dizziness and lack of consciousness.

We do not recommend using shower trays and bathtubs after taking medications or any substance that could cause drowsiness or could affect blood pressure.

For your personal safety we suggest using shower trays and bathtubs at a maximum water temperature of 40°C.

When the surface of the shower tray and bathtub is wet, the degree of slipperiness increases, especially if shampoos, soaps and oils are used.

CARE AND MAINTENANCE

Simply clean your DuPont™ Corian® shower tray or bathtub surface with soapy water or any common detergent, which will remove most of the stains and dirt likely to be deposited. Gel or creamy detergents are particularly recommended.

Use of harsh chemical products such as acetone, trichloroethylene or strong acids or bases is not recommended.

GUARANTEED QUALITY

Please visit our website (www.corian.com) to review the warranty guidelines applicable to your product.

CAUTION

We do not recommend using this product at water temperatures above 55°C
